

LOW TESTOSTERONE

YOUR PARTNER IN TESTOSTERONE THERAPY

Your patients deserve safe, effective, and expert-guided treatment options.

WHEN TO REFER:

- + Patients with borderline testosterone levels or unexplained symptoms.
- + Men struggling with current testosterone treatments or experiencing complications.
- + Younger men concerned about preserving fertility while managing Low T.
- + Patients seeking advanced, guidelines-based care instead of men's clinics.

WHY REFER TO US:

- + **Safety:** Evidence-based, guidelines-driven treatments.
- + **Comprehensive Care:** Integrated treatment plans tailored to each patient.
- + **Specialized Expertise:** Our team has deep experience managing even the most complex cases.

FAQS FOR REFERRING PROVIDERS:

How do I refer a patient? Use our streamlined referral system at [contact info/portal URL].

What happens after I refer? Our team will work closely with your patient and keep you updated on their progress.

Can I discuss specific cases? Yes, feel free to contact Dr. Kapadia or any of our specialists directly at [contact info].

Let's work together to ensure your patients receive the best care for Low T. Refer today to Georgia Urology.
